

Kaleb Cortés Mejía

Software Developer | Full-Stack & iOS

Mexico City, Mexico | kaleb.cortes1208@gmail.com | +52 55 3444 6608
github.com/Kal1219

Professional Summary

Junior Software Developer with an academic background in Applied Mathematics and Computer Science and hands-on experience in full-stack development, iOS applications, and game development. Experienced with React, TypeScript, Node.js, Swift/SwiftUI, Python, C#, and Unity through web applications, mobile prototypes, and interactive systems. Previous experience as a technical mentor and trainer has strengthened my communication, leadership, problem-solving, and collaborative skills. Seeking a Software Developer / Full-Stack Developer role where I can contribute to production software while continuing to grow as an engineer.

Technical Skills

Languages: JavaScript, TypeScript, Swift, Python, C#, C/C++, SQL

Frontend: React, Vite, HTML, CSS, SwiftUI

Backend: Node.js, REST APIs, API development and validation

Databases: PostgreSQL, MongoDB, SQL

iOS Development: Swift, SwiftUI, API integration, GPS, camera integration

Game Development: Unity, C#, Input System, Animator, NavMesh, state machines

Tools: Git, GitHub, VS Code, Xcode, Unity, LaTeX

Concepts: Git branching, pull requests, asynchronous programming, concurrency, modular architecture, frontend/backend integration

Selected Projects

CreatorOps Hub — Full-Stack Platform

2026

- Developing a full-stack application designed to centralize tools and workflows for content creators.
- Working across modern frontend and backend development, data persistence, validation, automated testing, and modular project organization.
- Applying a structured Git/GitHub workflow with feature development, intentional commits, technical documentation, and incremental delivery.

PokeTrash — Gamified Recycling App | SwiftUI

2023

- Developed an iOS application designed to encourage recycling through gamification, levels, points, and rewards.
- Integrated the device camera into the user flow for recording waste-disposal actions.
- Designed a reward concept based on discounts at university stores, with potential expansion to external commercial partners.
- **1st Place Winner — iOS Hackathon, FES Acatlán.**

iShare — Real-Time Safety and Location App | SwiftUI, GPS

- Developed a prototype for a Universidad Panamericana hackathon focused on sharing a user's location while traveling.
- Designed the experience so trusted contacts could follow a journey and verify that the user arrived safely.
- Planned future expansion into a social platform for sharing points of interest, recommendations, and local promotions.

InterMed+ — Digital Medical History App | SwiftUI

- Developed an application prototype for structuring and digitizing a patient's medical history before a consultation.
- Designed the workflow to provide physicians with relevant information in advance, enabling more focused questions and more efficient initial appointments.
- Planned future features including physician discovery, appointment scheduling, and integration with additional healthcare services.

Gameplay and Enemy AI Systems | Unity, C#

2026

- Developed player controllers, camera systems, ammunition, pickups, animation, and interaction mechanics in Unity.
- Implemented enemy behavior using NavMesh navigation, field-of-view and line-of-sight detection, and state

machines for patrol, chase, search, and other behaviors.

- Used Git/GitHub workflows with development branches, incremental commits, pull requests, and code reviews throughout the projects.

Professional Experience

Freelance Web & E-commerce Support

2026 – Present

- Manage and support e-commerce operations for clients, including Amazon Seller Central Mexico and online storefronts.
- Maintain product catalogs, listings, promotions, orders, and shipping workflows.
- Provide technical storefront support while communicating directly with clients to translate requirements into platform updates.

iOS Development Mentor — iOS Academy / FES Acatlán

2022 – 2024

- Mentored students in Swift programming and iOS application development using SwiftUI.
- Guided teams from early product ideas through the development and presentation of functional prototypes.
- Participated as a mentor and instructor in Mac Week, iOS Lab, and hackathon activities.

Trainer — Best Buy Campaign, TeleTech

8 months

- Trained new agents on technical tools, processes, customer service, and problem-solving.
- Delivered structured training sessions, performance follow-up, and feedback.

Customer Support & Technical Assistance — TeleTech, Royal Holiday, RCI

5+ years

- Provided bilingual customer support for customers across the United States, Canada, and Puerto Rico.
- Worked across technical support, account management, conflict resolution, and sales.

Education

Diploma Program in Video Game Design and Programming

2026

Faculty of Engineering, National Autonomous University of Mexico (UNAM)

Currently enrolled — expected completion: September 2026

B.Sc. in Applied Mathematics and Computer Science

FES Acatlán, National Autonomous University of Mexico (UNAM)

Coursework completed — degree completion process in progress

Certifications & Achievements

- 1st Place — iOS Hackathon, FES Acatlán (2023)
- Participant — National iOS Hackathon (2022)
- Design Thinking — IBM (2022)
- Introduction to Swift — iOS Academy (2022)
- iOS App Development — iOS Academy (2022)
- Introduction to Mobile Development — iOS Lab (2024)
- Trainer 101 — TeleTech (2015)
- Soft Skills Training, Basic through Advanced — TeleTech (2015)

Languages

Spanish: Native **English:** Advanced — professional experience supporting customers in the United States, Canada, and Puerto Rico
